### **Professional Profile**

UX/UI designer, five years in startups and agencies, owning the full process from research to handoff. Built a B2B SaaS design system and shipped products in logistics, with consumer-facing work in food delivery. Moving into front-end with React and Claude Code.

### **Experience**

#### **WACOCO - Stockholm, Sweden**

**UX/UI Designer**, Apr. 2026 - Present

- Revamped the core incident reporting flow of a healthcare SaaS platform, increasing adoption among frontline users
- Ran usability sessions and demos directly with clients, turning observed friction into design iterations
- Used Claude Code to build functional prototypes rather than static mockups, shortening the loop between design and implementation

#### **CLVR BENEFITS AB - Stockholm, Sweden**

**UX/UI Designer**, Sep. 2024 - Apr. 2026

- Sole designer taking a B2B employee benefits platform from zero to shipped MVP
- Built the design system from scratch in Figma, establishing a component library and design tokens that held the product consistent as it scaled
- Worked with engineers through implementation, applying WCAG standards throughout

#### **SHIPMATES TECHNOLOGIES - Manila, Philippines**

**UX/UI Designer**, Sep. 2021 - July 2023

- Established the UX and visual direction at a Y Combinator-backed logistics startup, taking two products from concept to launch
- Interviewed dispatchers and drivers to map how work actually happened, surfacing local practices the old process ignored and shaping the structure and flows of both products
- Designed a two-sided system: a dispatch dashboard for businesses and a mobile-first driver app, replacing a workflow that ran on spreadsheets and group chat

#### **DEREMIOS AGENCY - Manila, Philippines**

**Graphic & Web Designer**, Jul. 2020 – Sep. 2021

- Designed a responsive food delivery web app mobile-first, covering browse, ordering and checkout
- Built the visual system and marketing assets across digital and print, keeping the brand consistent from campaign to product

#### **ART PERSONAS - Manila, Philippines**

**Graphic Designer**, Feb. 2019 – May. 2020

- Ran a visual and UX audit for a logistics client, delivering design recommendations that shaped their next iteration

### **Education**

**DE LA SALLE - COLLEGE OF SAINT BENILDE - Manila, Philippines**

**BA Multimedia Arts**, 2014 - 2018

### **Skills**

**Design:** UX/UI design, design systems, token management, interaction design, user research, wireframing, prototyping, usability testing, accessibility (WCAG)

**Tools:** Figma, FigJam, Lovable, Claude Code, Jira, Linear

**Development:** HTML, CSS, React, Storybook, Git/GitHub

**Languages:** English (native), Filipino (native), Swedish (studying, SFI)
